

# PRODUCT SHEET:

## STABILIZER STEPFEST JACK

### Delivering strength. Providing support. Raising expectations.

It is the product of enhanced form and function. The Stabilizer Stepfast Jack yields exceptional performance during all loading and unloading operations on the ramp by combining superior design with maximum durability.

Complementing its unmatched strength and sturdiness, the Stabilizer Stepfast Jack features a self-locking mechanism and an instant reset button, making it safe and easy to operate. Spring-driven sliding action allows for smooth, instantaneous adjustments when stabilizing or loosening the jack - throughout the entire range of lift. All steel construction provides additional support. With the Stabilizer Stepfast Jack, you can expect fast action and optimal performance, no matter the ramp conditions.

Sage  
Part Number  
T368304BASIC

### FEATURES

- ✓ Anti-locking feature for safer operation
